Assistant Commissioner for Patents
Washington, D.C. 20231

Response to Restriction Requirement

Sir:

In response to the species election requirement mailed on February 3, 2003 for the above-identified application, applicants respond as follows.

Claims 1-24 are pending in the application. The Examiner required the Applicants to elect a single disclosed species, even though this requirement is traversed.

Applicants are puzzled by the restrictions of the claims by the Examiner and believe that claims 1-24 form part of one and the same invention. Applicants believe that when there is a linking generic claim encompassing the scope of all the compounds, and process of preparing them, it is inappropriate to restrict the invention to a single compound. Applicants also believe that due to such commonality, a complete examination of claims 1-24 would not cause undue burden. Applicants further believe that the same art search will most probably apply to the alleged separate inventions. Reconsideration and withdrawal of the restriction requirement are, therefore, respectfully requested.

However, for the sake of facilitation of prosecution and in order to comply with the Examiner's requirement, Applicants elect the following species with traverse:

In re Application of: **Anandan Palani, et al.**
Serial No.: 09/995,949
Filed: November 28, 2001

The above-noted compound is in claim 11 and found on page 99 of the specification.

No fees are believed to be due with this response. If any fees are determined to be due by this paper, the Commissioner is hereby authorized to deduct such fees from Account No. 19-0365

The Examiner is requested to call the undersigned attorney on any matter connected with this application.

Respectfully submitted,

William Lee
